TEAM BRAVO · MU20 HACKATHON 2026

Spareway — Team Responsibilities

Who does what. Agresh builds the app. Bhavya, Yash and Vansh get everything ready before the hackathon and help during it.

READY BY	HACKATHON	KEYS
Fri 30 Oct, 6:00 pm	Sat 31 Oct – Sun 1 Nov	Give them to Agresh in person — never in the group chat

1. Who does what

Person	Job
Agresh	Builds the whole app with Claude
Bhavya	Gets all the keys and accounts ready, makes the logo, tests the app
Yash	Makes the animated PowerPoint presentation for the final pitch
Vansh	Collects route data and real numbers, writes the scripts, prepares answers for judges

2. Bhavya

Get ready before 30 Oct

#	Get this	Where	Give Agresh
1	Supabase project (free, region Mumbai)	supabase.com	Project URL, anon key, project ref, database password
2	Email sending key	brevo.com (free) — verify one sender email, create an SMTP key	Sender email + SMTP key
3	Google sign-in keys	console.cloud.google.com — OAuth client (Web), publish the consent screen	Client ID + Client secret
4	Route planning key	openrouteservice.org (free)	API key
5	AI key	aistudio.google.com — Get API key; note the newest “Flash” model name	API key + model name
6	Fonts	Inter + Noto Sans Devanagari (free on Google Fonts) — check Hindi text looks good	OK
7	Logo	Ask Agresh for the Design System PDF and follow it: lime mark on dark + the word “Spareway”	Logo as SVG + PNG
8	Phone for testing	Android phone with Chrome, hotspot working	—
9	Hindi check	Ask Agresh for the Engineering Reference (section 7.6) and check the Hindi names of places, cargo and trucks read naturally	Corrections list

> Keys are secret. Keep them in a private note and hand them to Agresh in person.

During the hackathon

- ☐ Test the app on your phone every time Agresh says a new version is ready.
- ☐ Check that screens look like the Haulix pictures in the Design System PDF and stay simple.
- ☐ Tap the Hindi button on every screen: tell Agresh anything still in English.
- ☐ Write down bugs and UI changes in one list and give it to Agresh: which screen, what you did, what went wrong, a screenshot.
- ☐ Play the loader in the demo: scan the QR code and follow the loading steps on your phone.
- ☐ Send app screenshots to Yash.

3. Yash — the main task: an amazing animated PowerPoint for the pitch

This is the presentation we show the judges. It must look as good as the app, with smooth animations, and tell the Spareway story clearly.

Get ready before 30 Oct

#	Get this	Details
1	Tools	Your Claude account with Claude Code, PowerPoint, Node.js, and Remotion (for animated clips) installed and tested once
2	Connectors	Connect the apps you'll use in Claude (for example Google Drive for screenshots and the logo) and check they work
3	Tutorials	Watch how to make animated PowerPoint slides (Morph transitions, animations), how to make a short clip in Remotion, and how to ask Claude to build and edit slides
4	Look	Ask Agresh for the Design System PDF and use its colours, fonts and style so the slides match the app
5	First version	Start the PowerPoint with the logo, the problem, the idea and the team — screenshots get added during the hackathon

During the hackathon

- ☐ Add real app screenshots and short screen recordings from Bhavya.
- ☐ Use only numbers Vansh gives you (with a source).
- ☐ Make the animations smooth and the slides easy to read from far away. Show the Hindi button moment (one tap, whole app in Hindi).
- ☐ Final PowerPoint (and a PDF copy) ready by Sun 1 Nov, 10:00 am. Practise the pitch with the team twice.

4. Vansh

Get ready before 30 Oct

#	Get this	Details
1	Route data	4 spreadsheets (CSV) for the Manesar → Jaipur → Ahmedabad → Mumbai highway: tolls, dhabas/halts, checkpoints, city no-entry hours. Ask Agresh for the exact columns
2	Real numbers	Diesel price, driver pay per hour, driving-hour rules, facts about small truck owners — each with a link to where you found it
3	Hindi words check	With Bhavya, read the Hindi demo words in the Engineering Reference (section 7.6) and fix anything that sounds wrong
4	Hindi sentences	30+ ways a loader would describe a box out loud, like “दस बाई दस का बॉक्स, ऊँचाई बीस, पचास पीस, नाज़ुक है”, and what “ऊपर से / नीचे से” means
5	Scripts	A 5-minute demo script, a 2-minute pitch speech, and a list of judge questions with short answers
6	Submission text	Project name, one line, and short and long descriptions

During the hackathon

- ☐ Keep time: tell Agresh when a part is taking too long.
- ☐ Try the Hindi voice feature with your sentences and report what fails.

☐ Update the numbers with real results from the app for Yash's slides.
☐ Run the practice pitch with a stopwatch.

5. Timeline

When	Bhavya	Yash	Vansh
Wed 28 – Thu 29 Oct	Keys 1–5	Tools, connectors, tutorials	Route data, real numbers
Fri 30 Oct (by 6 pm)	Fonts, logo, phone, Hindi check	First version of the PowerPoint	Hindi words check, sentences, scripts, submission text
Sat 31 Oct	Morning: wait for the first version (Phase 0). Then test every new version, bug list	Add screenshots	Timekeeping, judge answers
Sun 1 Nov	Test final version, loader in the demo	Final PowerPoint by 10 am	Voice tests, practice pitch
